**Email:** [pchelenkovartem@gmail.com](mailto:pchelenkovartem@gmail.com)

**Linkedin:** [artem-pchelenkov](#)

**Languages:** English, Russian (native)

I am a hard-working, self-motivated individual with a responsible work ethic. When it comes to achieving both the goals my company sets and the ones I set for myself, I am a quick learner and easily adapt to new things. I enjoy working in a team and under pressure, as well as analyzing and solving problems. I am experienced in both front-end and manual testing. I'm excited to begin working as a junior front-end developer.

## Skills

- JavaScript
- React/Hooks [MobX]
- HTML/CSS = ["SCSS", "SASS"]
- Bootstrap
- Node.js
- Git/GitHub

- fetch/Axios
- FileZilla
- WordPress
- Styled-components
- Familiar with Docker
- AWS (Amplify, Route53, S3)
- Postman

## Experience

[2021] – Present

### Front-end Developer / [Swedcon18 AB, Sweden]

I am working on an amazing project that will help people with low-income to take care of their health and the health of their loved ones. In this project, I communicate with the designer and backend teams. I use React, React Query, Postman, Docker. In addition, compose the necessary documentation about the technologies and our system in general.

The close relationship with the backend developers helped me to understand the backend part. The run environment in Java and Spring Boot.

Also, train and help developers with entry-level knowledge.

- React (Query/Context API)
- Axios
- Module.(S)CSS
- Docker
- Git/GitHub

- Postman
- CI/CD pipeline
- Next.js
- UI/UX Figma

[2021, JANUARY] – [2021, JUNE] 6 MONTHS

## Junior Front-end Developer / [Spacept AB, Sweden]

I was a part of a small but very fast-growing company Spacept AB. In this company, I worked with a creative and fully energetic team. For this short work term I learned new techniques such as Amazon Web Services (AWS): Amplify, Route 53, Simple Storage Services (S3). As well as WordPress (WP) and FileZilla. My main task was to create a calculator on the React.js library to compare different types of inspection. I worked with geolocation on automatic recognition of Euro and Dollar zones for different clients.

This application is responsive and fully integrated into WP. You may check my work on the official website [Spacept.com](https://spacept.com)

- React
- Axios
- CSS
- FileZilla
- Git/GitHub

- WPEngine
- WordPress
- AWS (Amplify, S3, Route 53)

[2018] – [2019]

## Junior Front-end Developer / [IT Academy Step, Belarus]

I learned how to be passionate about developing high-quality and maintainable software, exploring modern technologies, and using best practices (writing simple and clear code).

- Ability to use HTML/CSS
- Understanding the fundamental Javascript
- Knowledge and use of frameworks and libraries (React, Bootstrap)
- Knowledge and use of the Git Version Control System.
- Ability to customize the npm Package Manager.

[2013] – [2019]

## [Supervisor] / [Royal Canin, Belarus]

- Managing a team of 12.
- Drawing up the annual Personal Development Plan, to plan and encourage the development of employees.
- Implementation of quality and food safety standards, such as HACCP, DQM, and Workflow.
- Leading projects to expand and improve the efficiency of the warehouse.
- Preparation and writing of instructions and procedures, keeping records.
- Working with accounting software such as Navision and WMS Solvo.
- Acceptance and dispatch of goods.

---

## Education

[2018] – [2019]

[Front-end Developer] / [IT Academy Step, Belarus]

[2017] – [3 MONTHS]

[QA engineer] / [Technology Center, Belarus]

[2009] - [2014]

[Technician-technologist] / [College, Belarus]
